Passionate **Front End Developer** skilled in **Next.js, Firebase, and MongoDB**, with hands-on experience in real-time apps and authentication. Always learning, recently earned **Google's Gemini certification**.

## WORK EXPERIENCE

### Web Devolper Code Alpha

01/2025 - Present

Remote

Front End Development

- React js , Tailwind CSS , GitHub , TeamWork, Git Branches

## PERSONAL PROJECTS

### ZayChat (01/2025 - 02/2025)

- ZayChat is a real-time chat app built with React and Firebase, offering seamless messaging with secure Google and email login. It features a clean, responsive UI with dark mode for a better user experience. Users can share images and documents effortlessly, while performance optimizations ensure smooth operation.

### Summit View School (08/2024 - 11/2024)

- Created a responsive website with Firebase authentication, enhancing user engagement and accessibility

### YIM Website (01/2025 - Present)

- Currently developing a website for the Youth Islami Movement using Next.js, aiming to expand its digital presence

### Digital Clock (06/2024 - 06/2024)

- Designed a responsive digital clock that adapts to any device, ensuring clear and accurate time display with customizable themes.

### Rendome Quote Generator (05/2024 - 05/2024)

- Code a rendome code generator in which
